Other notes or comments on facilities for horses or people

Can be busy if you try to get in on a weekend. Some trails are marked but can be difficult to find some of the good rides if you don't know the area. Cell phones do not work in this area.

Some trails have steep climbs and the river crossing can be high depending on the time of year. Check with other rides in camp if in doubt about which crossing are safe to cross.

If you are doing the ride into the outfitters camp take money for coffee as the coffee pot is always on and they accept donations for the coffee. You can take a beak and have your lunch at a picnic table with a warm cup of coffee.

Destination contact name:

Don't cross the bridge at Mountaine Aire Lodge you need to stay on the North side of the river.
